

CS620: Applied Algorithms, Fall 2018
Weisberg Division of Computer Science, Marshall University
Assignment 08
Total Points: 50
Due: 11:59 p.m., Dec 02

1. Implement top-down **or** bottom-up approach for rod cutting problem. You can specify the length of rod in the program. **[50 pts]**

(Note 1: For all questions, please use hard coding, which means you can provide the input in the program. Please do not ask user to enter any value. Please let me know if you have any question. Thanks.)

(Note 2: **For each question, you only submit one source file. In this assignment, we have one question, so you will submit one source file on Blackboard.** The programming language does not matter. Please let me know if you have any question. Thanks.)
